/**
 * ============================================================
 * Process Name: Windows WebGUI - AI Modal Dialog Controller
 * ============================================================
 * Description:
 *   Клиентский контроллер и интерфейс универсального всплывающего окна
 *   с ИИ-анализатором записей, WikiLLM-интеграцией, прямым редактором системной
 *   инструкции и привязкой к ID панели интерфейса.
 *
 * Usage Examples:
 *   HTML Integration:
 *     <script src="/html/ai_modal_dialog/main.js?v=20261010_v2"></script>
 *
 *   JS Execution:
 *     window.AIModalDialog.show({
 *       title: 'Administrator',
 *       subtitle: 'SID: S-1-5-21-...',
 *       icon: '□ ',
 *       panelId: 'panel-winadmin-users',
 *       tableType: 'user_account',
 *       metadata: [{ label: 'SID', value: 'S-1-5-21-...' }]
 *     });
 *
 * File: main.js

================================================================
===============
Process Name: Windows Web Interface - App Logs Intelligence Ta
b
================================================================
===============
Description:
  Клиентский веб-интерфейс комплексного анализа, аудита, поиск
а и потокового
  мониторинга внутренних журналов программы AI-Windows-Admin с
трого из
  каталога %APPDATA%\AI-Windows-Admin\logs (log.json, info.log
, errors.log, fastapi.log и др.).
  Включает глубокую интеграцию с AIModalDialog, динамический T
imeline график,
  кластеризацию инцидентов, экспорт (CSV/JSON/Markdown) и живо
й терминал.
  Полная поддержка темной, светлой (NightView), кирпичной и те
рминальной тем через CSS-переменные.

Usage Examples:
  Web Route:
    /html/app_logs_tab/index.html
    /windows/api/webgui/app_logs_tab/index.html

  Tab Frame Integration:
    <div id="tab-app-logs" class="tab-pane fade"></div>

File: index.html

/**
 * ============================================================
==================
 * Process Name: Windows App Logs Tab - Main Controller Script
 * ============================================================
==================
 * Description:
 *   Клиентский контроллер продвинутого анализатора внутренних
 логов программы
 *   AI-Windows-Admin строго из %APPDATA%\AI-Windows-Admin\log
s.
 *   Включает глубокую интеграцию с AIModalDialog (WikiLLM L1
Cache + AI Root Cause),
 *   интерактивный Timeline-график, быстрые пресеты фильтрации
, экспорт (CSV/JSON/MD)
 *   и высокопроизводительный Live Tail Terminal.
 *   Полная адаптивность к светлой, кирпичной, темной и термин
альной темам.
 *
 * Usage Examples:
 *   HTML Integration:
 *     <script type="module" src="/html/app_logs_tab/main.js?v
=20261010_v3"></script>
 *
 * File: main.js
 * Project: ai-windows-admin
 * Package: windows/api/webgui/app_logs_tab
 * Author: hypo69
 * Copyright: © 2026 hypo69
 * Updated: 2026-10-12 08:20:00
 * ============================================================

/**
 * ============================================================
 * Process Name: AI-Windows-Admin Web Styles - Main Stylesheet Manifest
 * ============================================================
 * Description:
 *   Главный манифест стилей веб-интерфейса AI-Windows-Admin.
 *
 *   Зачем нужен этот файл:
 *     1. Модульная сборка стилей: агрегирует все слои оформления интерфейса
 *        (дизайн-токены/переменные, базовые стили, навигация, компоненты, чат, оверрайды).
 *     2. Поддержка динамических тем оформления (светлая/тёмная/кирпичная/терминал) через CSS-переменные.
 *     3. Cache-busting версионирование: контролирует параметры ?v= версий дочерних файлов стилей.
 *
 * Usage Examples:
 *   HTML Link Tag:
 *     <link rel="stylesheet" href="/src/api/webgui/css/main.css?v=20261006_v5">
 *
 * File: main.css
 * Project: ai-windows-admin
 * Package: src/api/webgui/css
 * Author: hypo69
 * Copyright: © 2026 hypo69
 * Updated: 2026-10-10 17:35:00
 * ============================================================
 */

Process Name: Windows Web Interface - Disk Speed Benchmark (Di
skSpd) View
================================================================
===============
Description:
  Шаблон клиентского веб-интерфейса тестирования скорости диск
ов (CrystalDiskMark стиль на базе DiskSpd).

Usage Examples:
    Web Route:
      /windows/api/webgui/disk_speed_tab/index.html

    Tab Frame Integration:
      <iframe src="/windows/api/webgui/disk_speed_tab/index.ht
ml" class="w-100 h-100 border-0"></iframe>

/**
 * api-cache.js - Универсальный кеш-слой для всех API-запросов
 веб-интерфейса
 *
 * Предоставляет единую точку входа для всех HTTP-запросов с а
втоматическим кешированием,
 * используя современные стратегии: Cache-First, Network-First
```

```
, Stale-While-Revalidate.
 *
 * АРХИТЕКТУРА:
 * - L1 Cache: In-Memory (быстрый доступ)
 * - L2 Cache: IndexedDB (персистентный)
 * - L3 Fallback: Direct network (если кеш недоступен)
 *
 * ПРИМЕНЕНИЕ:
 * Используется всеми вкладками веб-интерфейса для оптимизации
 загрузки данных,
 * снижения нагрузки на API и обеспечения offline-режима.
 *
 * @author hypo69
 * @version 1.0.0
 * @since 2026-09-24

/**
 * browser-cache.js - Универсальный менеджер браузерного кеша
и долговременного хранилища
 *
 * Предоставляет многоуровневое хранилище (L1 In-Memory + L2 I
ndexedDB + L3 Fallback)
 * для эффективного хранения больших объемов клиентских данных
```

```
:
 * - Ответы API и справочники
 * - RAG-индексы, эмбеддинги и поисковые чанки
 * - История чатов и сообщений ассистентов
 * - Аудиофайлы TTS и медиа-блобы (Blob / ArrayBuffer)
 * - Реестры моделей и системные конфигурации
 *
 * Включает автоматическую очистку по TTL, групповую инвалидац
ию по тегам,
 * мониторинг дисковой квоты браузера и персистентность.
 *
 * ПРИМЕЧАНИЕ: Приложение запускается в своем окне через Edge
--app=url,
 * что может ограничивать доступ к Storage API. Проверьте конс
оль браузера
 * на наличие предупреждений о недоступности IndexedDB.

/**
 * ============================================================
==================
 * Process Name: Windows Js - I18N Script
 * ============================================================
==================
 * Description:
 *   Клиентский модуль интернационализации (i18n) и региональн
ых настроек (BCP 47).
 *   Поддерживает нормализацию тегов language-REGION (например
 ru-RU, he-IL, uk-UA, en-US),
 *   автоматическое определение из URL query параметров (?regi
on=ru-ru, ?locale=ru-RU,
 *   ?language-region=ru-RU, ?lang=ru), переключение языков и
синхронизацию DOM.
 *
 * Usage Examples:
 *   HTML Integration:
 *     <script src="/windows/api/webgui/js/i18n.js?v=20261006_
v10" type="module"></script>
 *
 *   JavaScript Import:
 *     import { initI18n, switchLocale, switchLang, normalizeL
ocaleTag, getCurrentLocale } from '/windows/api/webgui/js/i18n
.js';
 *

================================================================
===============
Process Name: Windows Web Interface - Log Settings & Multi-Dom
ain Hierarchy
================================================================
===============
Description:
  Клиентский веб-интерфейс настройки, мониторинга и иерархичес
кого каталога
  Windows Event Logs по 7 доменам телеметрии (Security, Proces
s, Storage,
  Network, Update, Hardware, Power) и Sysmon, построения графо
в процессов
  (Provenance) и реконструкции жизненного цикла системы.

Usage Examples:
  Web Route:
    /windows/api/webgui/log_settings_tab/index.html

  Tab Frame Integration:
    <iframe src="/windows/api/webgui/log_settings_tab/index.ht
ml" class="w-100 h-100 border-0"></iframe>

File: index.html
Project: ai-windows-admin
Package: windows/api/webgui/log_settings_tab
