================================================================
===============
Process Name: Windows Web Interface - Power Lifecycle & Boot H
istory Tab
================================================================
===============
Description:
  Клиентский веб-интерфейс анализа жизненного цикла питания Wi
ndows,
  истории перезагрузок (User32 1074, Kernel-Power 41, EventLog
 6008/6005/6006),
  реконструированных сессий питания (Power Sessions) и корреля
ции инициаторов.

Usage Examples:
  Web Route:
    /html/power_lifecycle_tab/index.html
    /windows/api/webgui/power_lifecycle_tab/index.html

  Tab Frame Integration:
    <div id="tab-power-lifecycle" class="tab-pane fade"></div>

File: index.html

Process Name: Windows Processes Load Inspector - Index View
================================================================
===============
Description:
  Шаблон клиентского веб-интерфейса инспектора активности проц
ессов
  (Process Intelligence & Activity Deep Dive — 7 функциональны
х виджетов,
  сетевая активность и мониторинг изменений файлов в реальном
времени).

Usage Examples:
    Web Route:
      /windows/api/webgui/processes_load_inspector_tab/index.h
tml

    Tab Frame Integration:
      <iframe src="/windows/api/webgui/processes_load_inspecto
r_tab/index.html" class="w-100 h-100 border-0"></iframe>

File: index.html

          Для дистанционного управления сначала откройте Медиа
плеер на вашем компьютере или телевизоре.
          Данный пульт автоматически подключится к нему через
сервер.
          Вы можете нажимать кнопки для запуска файлов, перекл
ючения треков, перемотки или изменения громкости.
          Также доступно голосовое управление кнопкой микрофон
а.
          Простые команды: «пауза», «плей», «громче», «тише»,
«вперед» и «назад» сработают мгновенно.
          А любые другие фразы будут отправлены вашему AI-асси
стенту Gemini для помощи в выборе фильма или ответа на вопросы
.

Process Name: Windows Web Interface - Index View
================================================================
===============
Description:
  Шаблон клиентского веб-интерфейса аудита автозапуска Windows
 (Startup Auditor).
  Полная поддержка светлых и тёмных тем с использованием дизай
н-токенов CSS.

Usage Examples:
    Web Route:
      /windows/api/webgui/startup_auditor_tab/index.html

    Tab Frame Integration:
      <iframe src="/windows/api/webgui/startup_auditor_tab/ind
ex.html" class="w-100 h-100 border-0"></iframe>

 * ============================================================
==================
 * Process Name: Windows Startup Auditor Tab - Main Script
 * ============================================================
==================
 * Description:
 *   Клиентский скрипт управления интерфейсом модуля main (Sta
rtup Auditor).
 *   Обеспечивает загрузку, фильтрацию, переключение состояния
, AI-диагностику,
 *   асинхронное обновление снимков телеметрии и аудит диффере
нциальных изменений.
 *
 * Usage Examples:
 *   HTML Integration:
 *     <script src="/windows/api/webgui/startup_auditor_tab/ma
in.js?v=20261006_v15" type="module"></script>
 *
 * File: main.js
 * Project: ai-windows-admin
 * Package: windows/api/webgui/startup_auditor_tab
 * Author: hypo69

5941
5942      ### 1. Что это такое?
5943      Компонент для мгновенного перехвата операций файловой системы
       в режиме реального времени на базе WinAPI ReadDirectoryChanges
      W с поддержкой одновременного наблюдения за произвольным колич
      еством папок.
5944
5945      ### 2. Типы отслеживаемых действий:
5946      - Created: Создание нового файла или папки (FILE_ACTION_ADDED)
      .
5947      - Modified: Модификация содержимого, атрибутов или размера фай
      ла (FILE_ACTION_MODIFIED).
5948      - Deleted: Удаление файла или папки с диска (FILE_ACTION_REMOV
      ED).
5949      - Renamed: Переименование объекта (старое и новое имя).
5950
5951      ### 3. Как выбрать или добавить папки?
5952      1. Нажмите кнопку «Папка» в заголовке панели.
5953      2. Откроется модальное окно с проводником файловой системы.
5954      3. Выберите логический диск (C:, D:, E:), перейдите в нужную п
      апку или вставьте путь вручную.
5955      4. Нажмите «+ Добавить папку» или кнопку «Следить» напротив лю
      бой подпапки.
5956      5. Нажмите «Применить и запустить». Список сохранится в config
```

===============
Process Name: Windows Web Interface - Taskbar & Window Managem
ent Tab
================================================================
===============
Description:
  Интерактивный пульт управления панелью задач Windows 10/11,
окнами рабочего
  стола, закрепленными приложениями, ITaskbarList3 UX, Command
 Registry
  и историей изменений в telemetry.db с поддержкой отката (Rol
lback).

Usage Examples:
    Web Route:
      /windows/api/webgui/taskbar_tab/index.html

    Tab Frame Integration:
      <iframe src="/windows/api/webgui/taskbar_tab/index.html"
 class="w-100 h-100 border-0"></iframe>

/**
 * ============================================================
==================
 * Process Name: Windows Telemetry Config Tab - Main Script
 * ============================================================
==================
 * Description:
 *   Клиентский скрипт редактора файла конфигурации телеметрии
 Windows.
 *   Обеспечивает интерактивное визуальное и raw-JSON редактир
ование параметров
 *   с мгновенной синхронизацией и применением на лету.
 *
 * Usage Examples:
 *   HTML Integration:
 *     <script src="/windows/api/webgui/telemetry_config_tab/m
ain.js?v=20261006_v1" type="module"></script>
 *
 * File: main.js
 * Project: ai-windows-admin
 * Package: windows/api/webgui/telemetry_config_tab
 * Author: hypo69
 * Copyright: © 2026 hypo69
 * Updated: 2026-10-10 17:35:00
